

TURBOVAC TRAY SEALERS:

EASY AND QUICK MOULD CHANGE, EASY ACCESS,
EASY TO CLEAN

“PACKAGING OF MEAT, VEGETABLES, FRUIT, READY MADE MEALS PORTIONED IN
PRACTICAL TRAYS WITH A PROFESSIONAL PRESENTATION”

The TPS 1000 and TPS 2000 are especially designed for easy and fast mould changes which consists off relatively light components. The transparant cover allows quick and full access for the mould change, loading and guiding the film and thorough cleaning of the machine. The TPS 2000 has 2 moulds which doubles the production capacity compared to the TPS 1000 or adds flexibility with the installation of 2 different moulds. This only requires changing the settings at the control panel for switching to a different tray dimension. The TPS range can be equipped with a special oxygen Busch pump for gasflush > 21% and photocell for centering printed film. The loading area can be extended, the exit belt can be motorized and the control unit has connections for auxiliary equipment.
